

Cold Plate Thin Brass Pneumatic Spot Welding Machine 100KVA Stainless Steel Spot Welder

Our Product Introduction

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Jin Hongxiang
- Certification: CE
- Model Number: JD-60
- Minimum Order Quantity: 1 set
- Price: Negotiable
- Packaging Details: Export safety wooden case
- Delivery Time: 5-10 working days. Or negotiation
- Supply Ability: 50 Set/Sets per Month

Product Specification

- Product Name: Spot Welder
- Applicable Industries: Building Cover Plate, Railway / Road Guardrail, Pet Cage, Storage Rack, Net Basket
- Rated Capacity: 100KVA
- Usage: Welding, Multi-point Welding
- Voltage: 380V, 50HZ
- Key Selling Points: Taiwan's Water-cooled Wet Control Transformer Will Not Be Affected By Overload
- Weight (KG): 450 KG
- Control System: Touch Electric Box Control
- Cylinder Stroke: 50MM
- Nominal Frequency: 50/60HZ
- Feature: Sufficient Power, Beautiful Welding, Firm And Fast Response
- Port: Shenzhen, China

Product Description

Pneumatic spot welder row welding machine for welding stainless steel

It can be spot welded or row welded. Spot welding can be used to weld cold plate, hot plate, stainless steel, thin brass

Other names

Spot welder,
butt welder,
welder,
iron sheet spot welder,
nut spot welder,
stainless steel spot welder,
special spot welder,
mesh spot welder,
wire mesh spot welder,

air pressure spot welder,
pneumatic spot welder,
pneumatic welder,

row welder,
multi spot welder,
high-power spot welder,
iron wire spot welder,
AC spot welder, 3-phase spot welder,
galvanized plate spot welder,
Battery spot welder,
multi cylinder spot welder,
DC spot welder,

touch welder,
medium frequency spot welder,
precision spot welder,
resistance spot welder,
spot welding machine,
customized spot welder,
Taiwan spot welder,
gantry spot welder,
small spot welder,

Spot welding machine,
touch welding machine,
multi spot welding machine,
welding machine,
sheet metal spot welding machine,
nut spot welding machine,
stainless steel spot welding machine,
special spot welding machine,
mesh spot welding machine,
wire mesh spot welding machine,

air pressure spot welding machine,
butt welding machine,

high-power spot welding machine,
wire spot welding machine,
AC spot welding machine,
galvanized sheet spot welding machine,
battery spot welding machine,
multi cylinder spot welding machine,
DC spot welding machine,

row welding machine,
pneumatic spot welding machine,
welding machine, pneumatic
precision spot welding machine,
resistance spot welding machine,
three-phase spot welding machine,
Customized spot welding machine,
Taiwan spot welding machine,
gantry spot welding machine,
small spot welding machine,

Definition of spot welding machine and row welding machine:

The spot welding machine is the same as the main machine of the row welding machine, but the effect to be achieved is different due to the different electrodes of the row welding mold.

The row welding machine is installed with the row welding die

The spot welding machine is installed with the spot welding die,

The choice of which mold to use is different from the product.

Tooling or fixture of the machine

The spot welding machine is a row welding machine. Because of the different products, it is necessary to do some positioning tooling or fixtures for the workpiece to facilitate more suitable welding of the workpiece. These can be customized as required. The main machine remains unchanged.

Row welding die

Spot welding die

Product Description

Performance characteristics

1. Cylinder direct pressure mechanism, good follow-up performance, fast welding speed, combined cylinder, Taiwan AS2410 large flow solenoid valve. Taiwan AS2410 solenoid valve has strong suction and sensitive response. It is ideal for continuous row welding of mesh.

**Taiwan AS2410 large
flow solenoid valve**

**Connected large
air cylinder**

2. All red copper water cooling temperature control device of transformer has the advantages of long service life, low noise, safety and convenient use.

A. Taiwan transformer features: sufficient capacity, greater welding force and stronger conductivity.

B. Water circulation cooling, which can be used within the rated range to ensure 24 hours of operation.

C. Moreover, the temperature control device can work overload and automatically cut off power to protect the whole machine from being affected.

3. The water-saving forced cooling mode is adopted, and the main circuit adopts high-power SCR contactless switch, with high conductivity and low power loss, High temperature automatic protection.

Display of welding products, spot welding of iron plate, row welding of iron mesh

Stainless steel welding

不锈钢板焊接

We always attach great importance to product quality. Before leaving the factory, it will be fully aged and debugged. And we always adhere to the principle of "providing customers with better quality, better price and better service."
