

Mechanical Automatic Trimming Machine Motor Control For Basket

Our Product Introduction

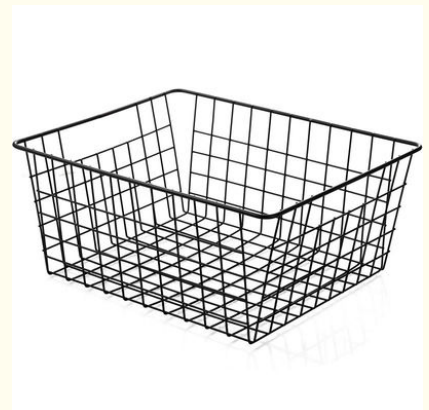

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Jin Hongxiang
- Certification: CE
- Model Number: 1-5
- Minimum Order Quantity: 1 set
- Price: Negotiable
- Packaging Details: Export wooden case
- Delivery Time: 5-10 days or negotiation
- Payment Terms: L/C, T/T
- Supply Ability: 100 Set/Sets per Month

Product Specification

- Product Name: Trimming Machine
- Condition: New
- Machine Type: Trimming Machine
- Weight (KG): 120
- Warranty Of Core Components: 1 Year
- Function: Trimming Mesh Edge
- Advantage: The Whole Machine Is Stable And Fast, And Can Be Trimmed Within 1.5m At A Time.
- Port: Shenzhen, China
- Highlight: **Mechanical Automatic Trimming Machine, Basket Automatic Trimming Machine**

Product Description

Mechanical trimming machine for trimming basket

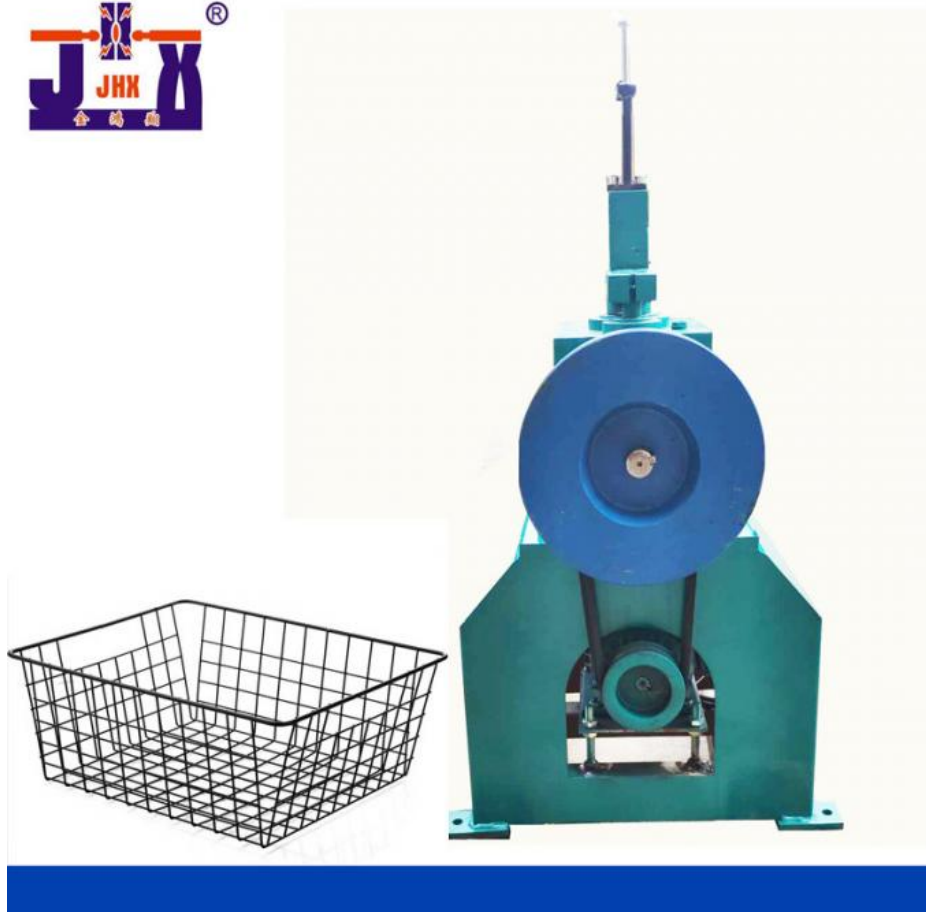

This trimming machine is mechanical, and only the motor controls the speed.

This small trimming machine is mainly used for trimming iron wire with a diameter of 1-5MM.

Because it is a little bit of finishing, it is more convenient for finishing products that are smaller and have shapes.

Other names

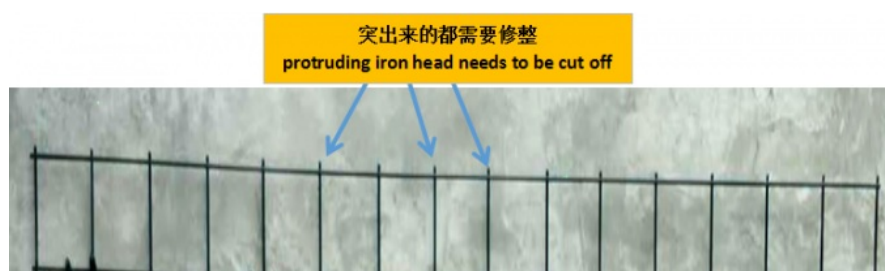

small trimming machine,
mesh trimming machine,
wire head cutting machine,
fast trimming machine,
mesh cover trimming machine,
basket trimming machine

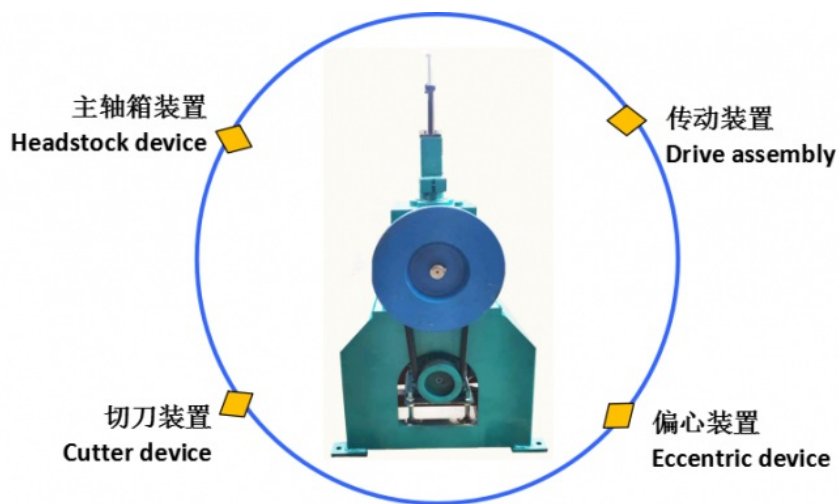

Function and application:

Metal mesh trimming machine, also known as edge trimming machine, head removal machine. It is used to cut the hair on the four sides of the wire mesh after welding. This makes the mesh more beautiful. It is mainly used for the production of high-quality wire mesh and cage for breeding, such as chicken cage, pigeon cage, bird cage, etc. Edge cutting machine is the supporting equipment of chicken cage net welding equipment. In addition, the machine is also widely used in the production of iron wire crafts, refrigerator shelves, disinfection baskets, flower racks, etc. Fast speed, small size, easy operation, economic benefits, deeply welcomed by the majority of users.

Trim Style

Overall structure

Performance characteristics:

1. The whole machine has compact and reasonable design, precise machining and smooth cooperation.
2. The spindle box is made of cast iron, precision cast and oil immersed seal, so that it can move smoothly for a long time.
3. The cutting knife is hardened white steel knife, and the lower knife is made of special hardened alloy material, which is sharp, durable and shock resistant.

Technical parameters of mechanical trimming machine			
model	input voltage V	Motor power KW	Wire diameter MM
JXB1-5	380v,60HZ	1	1-5MM
JXB2-8	380v,60HZ	2	2-8MM

Product display

After sales service:

One year warranty, lifelong maintenance and lifelong technical guidance

Our tenet: every equipment, we must achieve the ultimate!!

Warm tip:

our products are constantly upgraded and improved. If the color or structure changes, the real object shall prevail.
